

## Summer Family Holidays at Language in Dublin and Language in Totnes

Summer 28<sup>th</sup> June – 23<sup>rd</sup> August 2015

More and more parents are choosing to accompany their children when they study English. They take more interest in their children's education and they want to be close to them. Language in Group understands the importance of family holidays as well as the difficulties involved in organizing them.

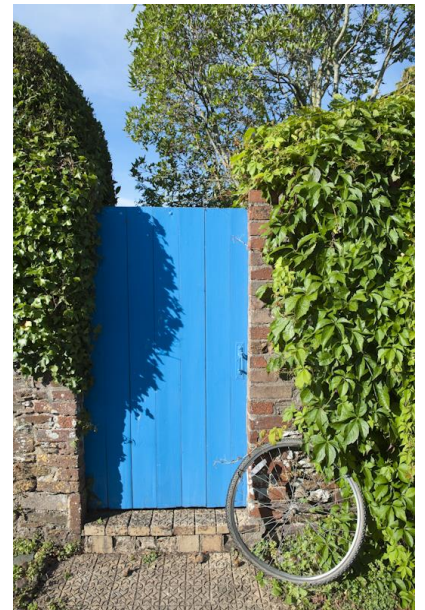

Language in Totnes organises every aspect of your family holiday including transfers, tuition, accommodation and a warm welcome – all you have to do is pack your bags and book your flight. We also recommend that you consider hiring a car during your stay to enjoy the local scenery on weekends and to increase your choice of accommodation and give you independence.

Language in Totnes offers **two family packages**:

**Package 1: the Family Homestay Package** and

**Package 2: the Family Cottage Package.**

Within these two packages you can choose from a variety of different tuition possibilities for you and your family members.

## Package 1: Family Homestay Package

Homestays are in Totnes or in surrounding villages – in the latter instance, hosts bring you and your children in and out of Totnes to school every day or you have a place in the twice daily school minibus.

This package is suitable for a 'family' of 2 people, a parent and a child.

The accommodation is usually shared or a combination of single and shared rooms. The host family provides breakfast and an evening meal for the adults and young learners (7-17 year olds). The young learner students have canteen lunch at the school during the week and the host family provides them with packed lunch on the weekends.

The homestay hosts welcome you and your family into their homes and you are encouraged to join them for meals and in the evenings, watching TV or sitting in the garden if the weather is nice. The kitchen is the host mother's domain so do offer to help, but be sensitive!

This is a great way of making friends, getting to know about local events and entering in to the local life of the different communities- not to mention helping your English!
